EDUCATING FOR GLOBAL FUTURES
STUDENT INFORMATION BROCHURE
2022

WELCOME

Banksia Park International High School is a contemporary secondary school for students from years 7 - 12. We provide a world class education with academic standards of excellence and positive learning experiences within a challenging and supportive environment.

As an international school, we are committed to educating for global futures by preparing our students to assume their roles as active and globally responsible citizens in an increasingly intercultural and technological world.

Our core values of commitment, respect and global citizenship underpin our educational and extra-curricular programs, where students are supported and guided to be eager learners, willing to take on challenges, who strive to reach their highest potential. We foster a vibrant, positive culture that promotes a strong sense of identity, interdependence and pride.

We acknowledge and celebrate student achievement and growth that leads to lifelong learning and successful pathways beyond school.

STUDENT LEARNING

Year 7s joining us in 2023 will become part of our middle school where we focus on empowering students to become confident and creative learners. Learning activities and assessments are aligned to the Australian Curriculum with a focus on the development of skills, knowledge and learning dispositions.

Students engage in learning through English, Humanities and Social Sciences, The Arts, Science, Mathematics, Technologies, Languages and Health and Physical Education. Interdisciplinary learning occurs through relevant and meaningful topics and inquiry into issues and ideas of local and global significance.

In the senior school we develop independent learners who are responsible and accountable for their learning and achievements. Students select from an extensive range of subjects, vocational education and training pathways and community-based learning, enabling all students to follow their strengths, passions, and interests for future pathways.

Our classrooms are innovative, flexible spaces that support our students to be self-directed and to work collaboratively. Our school has exceptional resources and facilities, creating ideal learning environments.

CARE GROUP PROGRAMS

Young people and their learning are at the heart of everything we do. Our Care Group programs are specially designed to cater for each year level and provide students with a personal learning plan to support their academic and personal development. School values, goal setting, growth mind set, study habits, work experience, driving and being safe, responsible use of technology, wellbeing, pathway and career planning are all part of our year 7 - 12 Care Group program.

SPECIAL ENTRY ENTREPRENEURIAL PROGRAM

This selective entry program is available to students entering year 7, which provides an entrepreneurial pathway through to year 12. Developing key skills and entrepreneurial capabilities highlighted by society and industry are the focus of this specialist program.

Students in the program are supported to define and pursue their own learning by working with communities, industries and universities to become agents of innovation, renewal, and growth.

Special entry for this program is based on a selection process available to students both in and out of zone. Further information can be found on our website.

EXTRA-CURRICULAR

We recognise that students learn, develop and grow through their involvement and participation in common interest activities. Our large array of extracurricular activities challenge and complement student learning and encourage school pride.

There are many opportunities for students to develop their leadership through school, community and international forums.

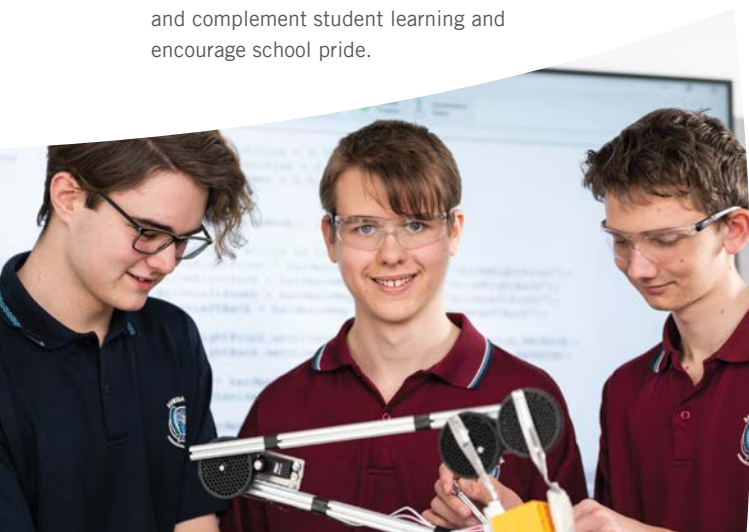

Students with musical interests can participate in the stage band, concert band, ensembles and vocal groups.

The school has a strong sporting tradition and is actively involved in interschool and state competitions and carnivals throughout the year in numerous sports.

Students can also get involved by joining a group or club in activities including art, entrepreneurialism, international, robotics, reading ambassadors and sustainability.

SCHOOL PARTNERSHIPS

At Banksia Park International High School, we value our partnerships with local and international families and homestays to build on students' personal growth and achievement. We welcome family involvement and participation at school activities and events.

OPEN NIGHT

THURSDAY 31 MARCH 3.30-7.00PM

Tours will depart regularly from reception, no bookings required.

Principal's address at 4.30pm and 6.00pm with Eventbrite booking via our website.

We invite families to attend our Open Night to take a tour of our school to further explore curriculum, programs and activities. Parents are invited to contact the school for additional information or to arrange an appointment with the principal or assistant principal for primary transition.
