

HOT WEATHER ARRANGEMENTS

At Banksia Park International High School we have two distinct arrangements that are implemented during hot weather and it is important that all members of our school community are aware of these arrangements. We want all our students to actively engage in the full learning program and at secondary school it is also important that students begin to develop an understanding of workplace conditions. Accordingly, we expect all students to attend school regularly regardless of the weather, except under exceptional circumstances as described in point 2 below:

1. **HOT WEATHER**

Our school is air-conditioned and we conduct normal lessons during hot weather. Our buildings generally cool down overnight and are quite bearable during the day. Any heat related student health issues will be managed through our normal first-aid processes.

2. **EXTENDED PERIODS OF EXTREME HEAT**

During a heatwave of 3 or more consecutive days of extreme heat over 38 degrees, the principal may enact the extreme heat policy. Parents will be notified of this and any early dismissal will be 1 hour before the normal scheduled finishing time for that day.
